UNITED STATES AIR FORCE

## JON W. MORRISON

Mr. Jon W. Morrison is the Air Force Metrology and Calibration (AFMETCAL) Deputy Director, AFLCMC/WNM, Heath, Ohio. He provides technical and administrative input for planning, budgeting, and management of the AFMETCAL Program. The primary objective is to ensure all Air Force systems and equipment measurements are accurate, uniform, reliable, and traceable to the National Institute of Standards and Technology (NIST) or other sources as approved by AFMETCAL. This is achieved through a hierarchical system of Air Force calibration laboratories around the world.

Mr. Morrison began his Federal career in 1981 as an Electronics Engineer. He has had numerous assignments, each leading to increasing responsibilities and challenges. He has served in both technical and managerial assignments during his career.
