Installation Safety

The 88 ABW Safety Office is responsible for minimizing the loss of resources and protecting personnel from death, injury, or occupational illness by managing risk on and off-duty.

The office conducts thorough and timely safety program reviews, facility inspections, and mishap investigations to provide leaders with recommendations to enhance risk management.

The safety office is comprised of Occupational, Weapons, and Aviation Offices.

Voluntary Protection Program

The VPP recognizes employers and workers in the private industry and federal agencies that implement effective safety and health management systems and maintain injury and illness rates below the National Bureau of Labor Statistics averages for their respective industries.
