Personnel Reliability Assurance Program (PRAP)
The Personnel Reliability Assurance Program (PRAP) course is designed to accomplish required training that will enable the student to competently perform the full spectrum of duties in support of program objectives. It is a combination of didactic and hands-on training that includes a program overview, the impact of medical conditions on ability/reliability, and recognition of suitability and mitigating factors as well as documentation and reporting. Also, included is the management of suspension and decertification recommendations as well as the process of returning a member to PRAP status.
Medical personnel working in stand-alone PRP clinics and medical personnel who are directly supporting PRP at MAJCOMS and supporting agencies are highly encouraged to attend on a space available basis. The lead CMA and the lead PRP monitor are responsible for the training of the rest of the medical group per AFMAN 10-3902.

**POCs for Registration**
